The library which is located on the second floor of the main building is a large, attractive room. The book collection has been well selected and affords both recreational reading and reference material for the students.

Through the munificent gift of the Tipton County Bivouac, the collection of books has been greatly increased this year.

In a few years, our cafeteria has grown from a small lunch stand on the campus to the present one pictured here.

Approximately two hundred students are served hot, nourishing, and attractive lunches daily. It is a part of our school of which we are justly proud.

Only a few years ago home economics girls were taught only sewing and cooking. The course is now vocational and includes Nutrition, health, child care and training, clothing, and its selection, home management and family

relationships. No matter what the girl does, she can use knowledge gained in Home Economics.

This department had its beginning in the year 1928-29 with an enrollment of 59 students and with only twelve typewriters. At the beginning of the present school term there was an enrollment of one-hundred fifty-seven students. We now have modern equipment, and twenty-eight typewriters are in use practically every period of the day.

A very large percentage of the students who have had work in this department have been fortunate in securing some kind of position in office work.

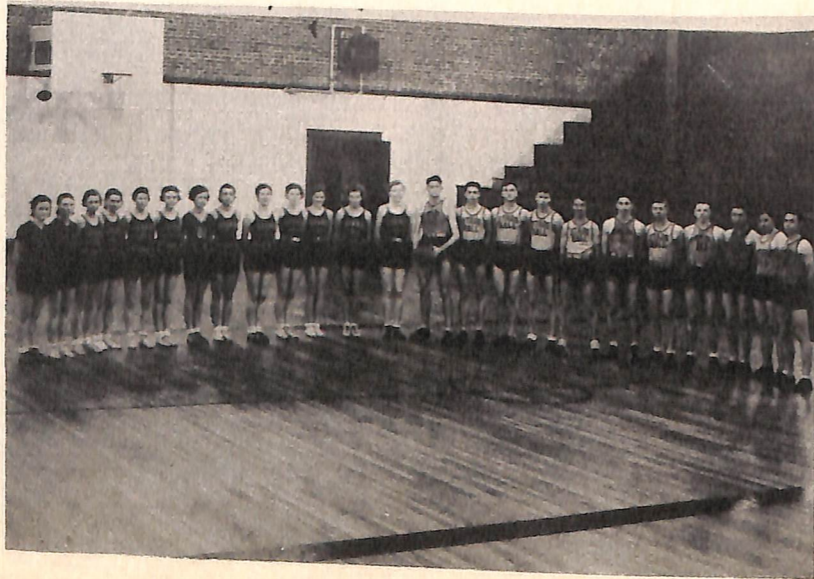

Individual desks  
for 30 students and  
running water for each  
desk.

"The best place to play basketball that I ever saw"  
said a well-known  
coach after seeing  
the Byars-Hall  
gymnasium. The  
seating capacity  
is 1200. The floor  
is 86' X 50'. The  
ceiling is 24 feet  
high.

On a city's southern border  
Reared against the sky  
Proudly stands our Alma Mater  
As the years go by;  
Forward ever be our watchword  
Conquer and prevail  
Hail to thee, our Alma Mater  
Byars-Hall, all hail.

Hail to thee, our Alma Mater  
As the years go by  
We will ever love thee nobly  
Till the day we die;  
And when death shall overtake us  
May our memory be  
Dear to those who us shall follow

The Byars-Hall football team played a schedule of eleven games, winning seven, losing three, and the other was a tie. As usual, the schedule included most of the strong teams of West Tennessee. According to the Dickinson system of rating teams, Byars-Hall was fifth in standing in West Tennessee in 1933.

Tolley, O. Ellis, Pannell, Price, Robison, R. Tanner, Morrison, Fisher, Robbins, Pinner, and Portis were the lettermen returning in 1933. Only two of these men were backs, and as a result, the team was very inexperienced at the beginning of the season. Tolley was one of the best tackles in West Tennessee. He was an ideal tackle since he combined speed, weight, and aggressiveness to the best advantage. Morrison developed into one of the best punters seen in this section.

By unanimous vote, Billy Portis, a guard, was elected to captain the 1934 eleven. Billy is a steady consistent player and should make a good leader. He is one of the lightest men in the Byars-Hall line but is a hard one to take out. He has had the whipping guard assignment for two years and has developed into an excellent interferer.

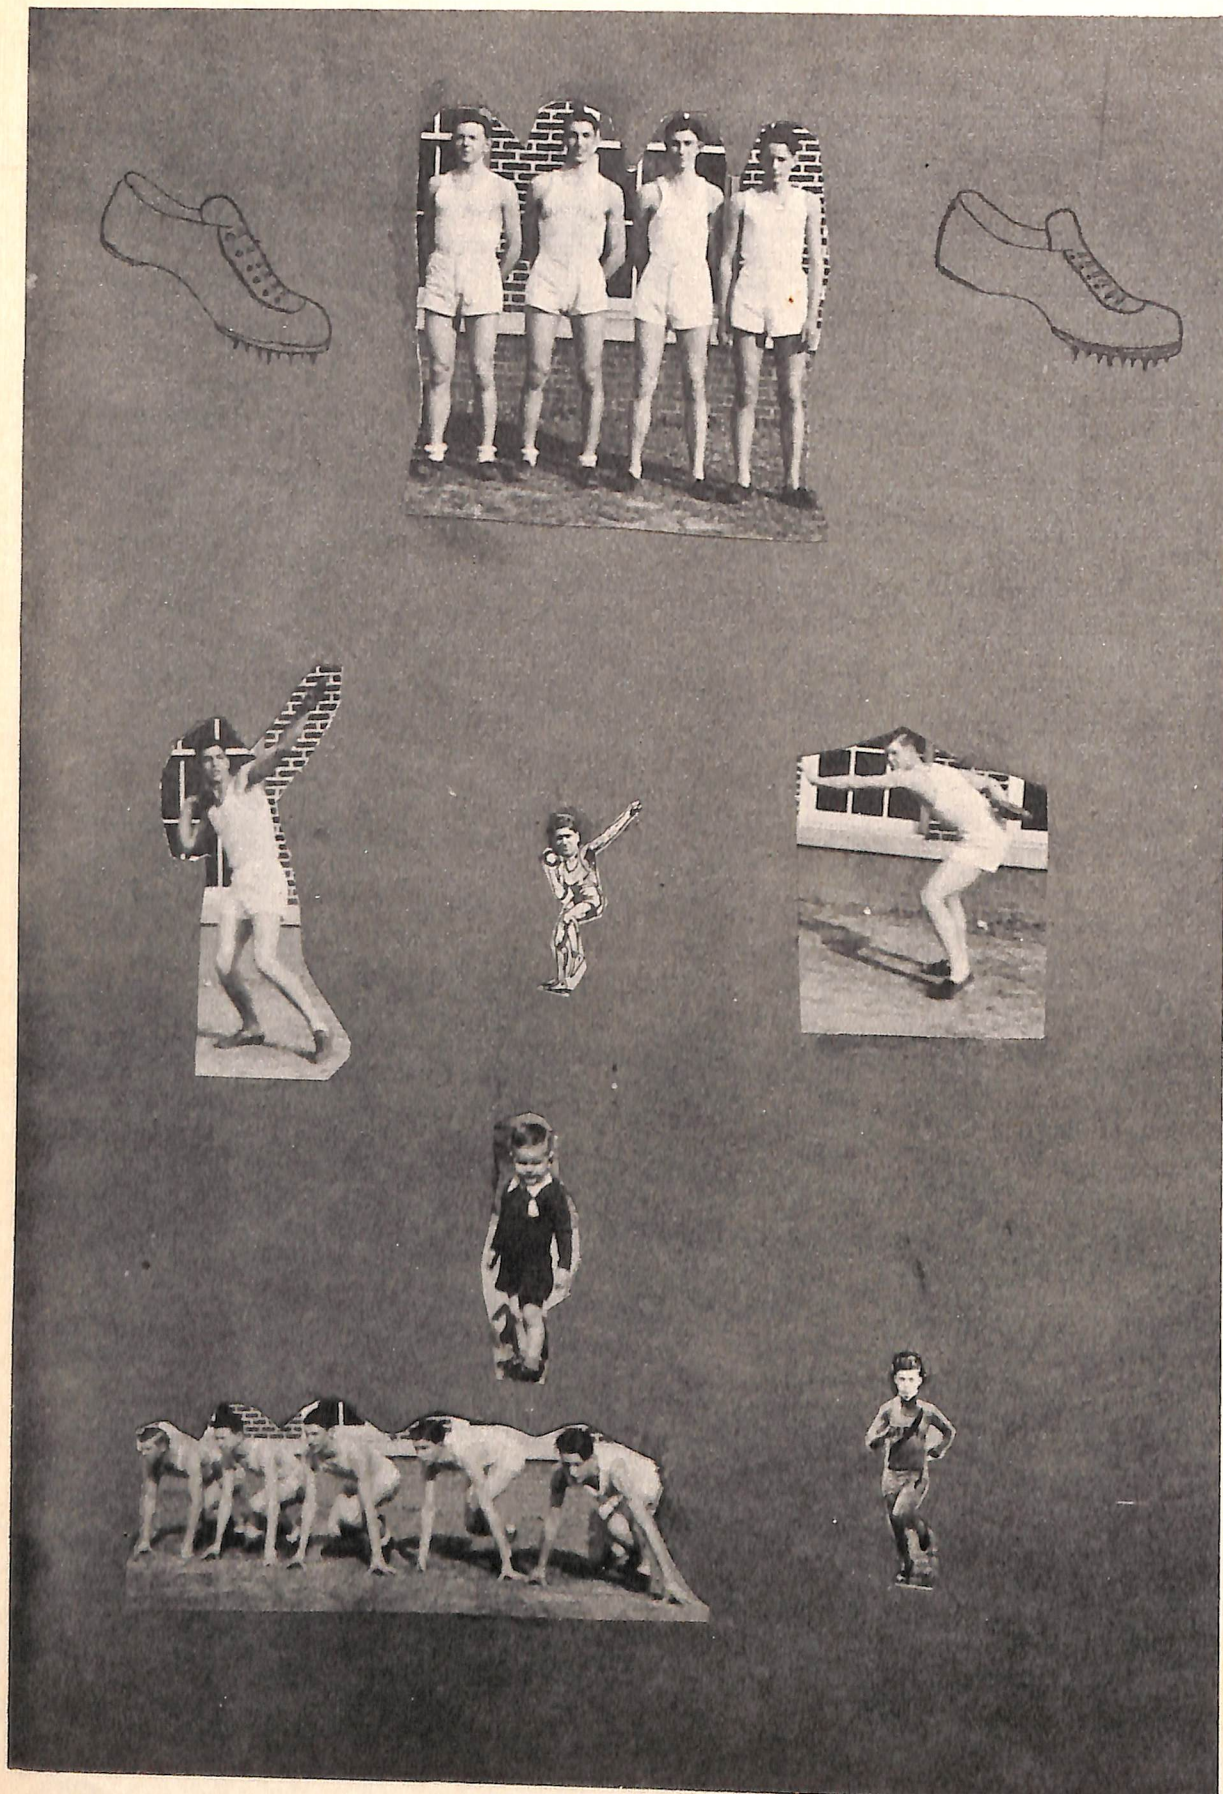

Much work has been done on the football field during the winter months. It is now tile drained, and turtle backed. It has an elevation of twelve inches in the center, and slopes gradually to all sides. A new sod has been laid over the entire field. The field will second none in the state. More bleachers will be built.

TRACK

The West Tennessee Regional Track and Field Meet will be held in Covington this year for the sixth consecutive year. For a number of years previous, an invitational meet was held here annually. As a result, the Covington people are track minded. The stores and business houses close their doors and the result is an attendance of from ten to fifteen hundred people. Last year there were more than two hundred athletes from a score of high schools.

Byars-Hall won the regional and district meets last year. The prospects this year are not as good as some years but there will be twenty-five or thirty boys out for the team. None of these boys have yet placed in a district or regional meet but several stars may be developed from the squad.

Oney Ellis and Edwin Scott are showing up best in the shot put with a number of others trying hard. J.W. Robbins was able to get around one hundred feet last year with the discus and should do much better this year. Winford McGowan and Frank Dodd are distance men with experience. In the dasher, Pinner, Parr, and others should give Coach Castellaw plenty of strength in this division. Felix Tanner may come through to win points in the high jump and hurdles.

The new cinder track is ready. It is one of the best in the state. It is twenty feet wide with a concrete curb. Bleachers will be built so that there will be seats for the usual large crowd.

Interest is growing in track in this part of the state. Baseball seems to be on the way out of the high school and track is taking its place. A number of fine tracks are being built and competition will be keener as a result.

The Future Farmers Association was organized March 1, 1927 with 28 charter members. We now have seventy-two members.

There have been notable achievements in cotton production and several prizes have been won by Byars-Hall students. In 1929, we won first place in state in cotton contest with 2085 lbs. of lint cotton on two acres. Dallas McKee won second with 1950 lbs. of lint cotton on two acres. In 1930, Robert Mashburn won third place in state cotton contest with 1620 lbs. of lint cotton on two acres. In 1931, Robert Mashburn won first place in state contest with 2264 lbs. lint cotton on two acres. Bill Hunt grew 2440 lbs. on three acres and P. A. Turner 1910 lbs. on two acres.

Farm shop work has been stressed. Seventy-one wagon beds have been built for the cost of the material. Each year repair of farm materials week is held in March.

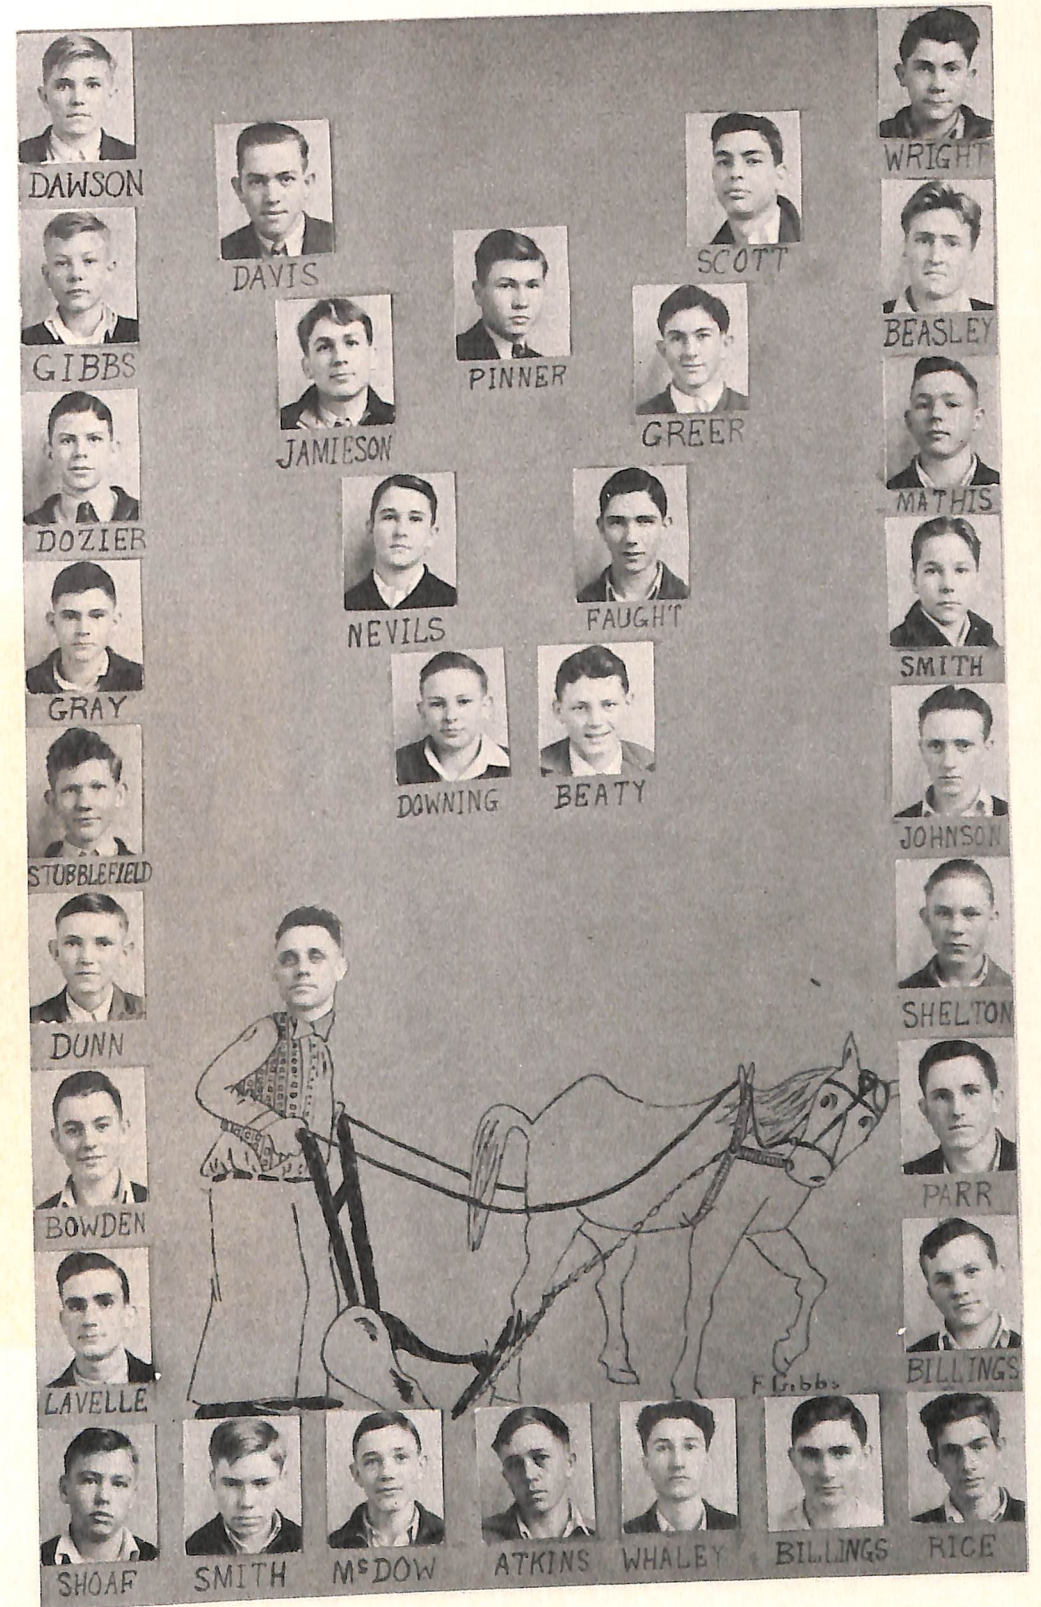

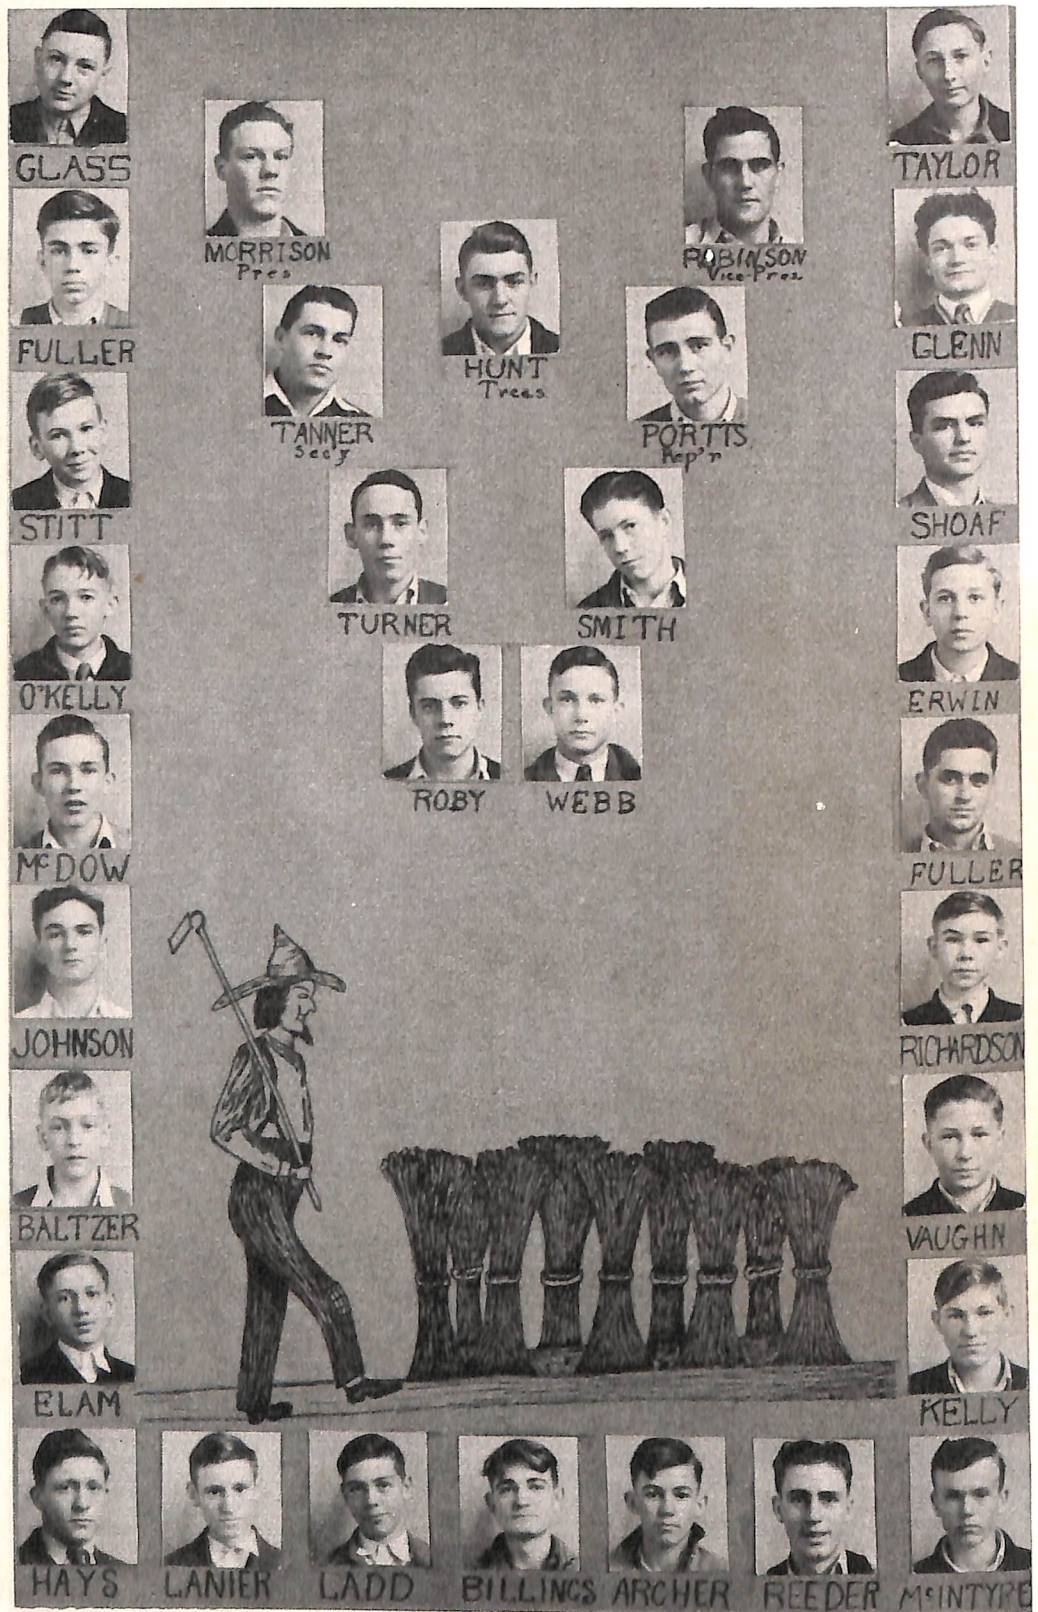

Last year this association sponsored a radio program over WTJS Jackson, Tennessee, and it plans to put on another soon.

The Agriculture Department of Byars-Hall is one of the best equipped departments of its kind in the Tri-states and has the largest enrollment in F.F.A. of any school in West Tennessee.

Each pupil carries out some kind of agricultural project. They are earning while learning. In 1929 they earned \$5200 on projects at labor income. In 1933 they had labor income of only \$2700.

Two trips have been made to West Tennessee Experiment station at Jackson, Tennessee.

# CLUB

The Pierian Dramatic Club was organized in 1929 with Miss Charlie Maclin as director and Miss Elizabeth Harvey as the club's first president. The prime purpose of the club is to foster a love for and an interest in Dramatics. All members of Expression and Public Speaking Departments are eligible for club membership. Many plays and programs are given throughout the year, culminating in the annual three-act play. Each year there are entries from this Club in the West Tennessee Inter-scholastic Field and Track Meet and Misses Alma Williams and Eleanor King have been successful in winning the first place in Expression contests for the years of 1932 and 1933.
